Latham West Bar & Grill Rockford, IL

Nolan was severely injured on September 16, 2009 when he collided with a deer on his motorcycle on Montague road. He has had plastic surgery on his face, hands, and knee, rods and screws to reconstruct bones in his leg, plates and screws to reconstruct collar bone, broken ribs, wrist, and multiple fractures of the skull. Nolan has a long road of recovery and many months of missed work. He wants nothing more than to get up and chase after his son.

Please help us help him...
